

Alu-Roll Membrane – CAM09

Shop CAM09 Alu-Roll Membrane from STIPL Roofz—ventilation membrane for ridges, ensuring watertight sealing for flat and mixed roof tiles.

Alu-Roll Ventilation Membrane – CAM09

CAM09 Alu-Roll membrane ensures watertight ridge ventilation, perfect for flat and mixed roof tiles.

The **Alu-Roll Membrane – CAM09** is an aluminum ventilation membrane designed for ridges and hips. With a 5 m roll length and 300 mm width, it provides watertight sealing and excellent ventilation for flat and mixed roof tiles. Crafted by STIPL Roofz, it is fastened to the uppermost batten with nails or staples, with adhesive strips securing it to the roof. Its durable, lacquered aluminum construction ensures protection against rain and wind, ideal for modern roofing systems.

Dimensions: 5 m x 300 mm

Material: 0.14 mm lacquered aluminum with butyl glue

Pallet Quantity (approx): 800 m (40 packs)

Waterproof Membrane

Alu-roll membrane ensures superior roof protection.

Durable Build

Resists weathering for long-term performance.

Easy Installation

Designed for secure, efficient roof sealing.
