

Alu-Roll Membrane – CAMF9

Discover CAMF9 Alu-Roll Membrane from STIPL Roofz—ventilation membrane for ridges, ensuring watertight sealing for flat and mixed roof tiles.

Alu-Roll Ventilation Membrane – CAMF9

CAMF9 Alu-Roll membrane offers superior ridge ventilation and watertight sealing for roof tiles.

The **Alu-Roll Membrane – CAMF9** is a high-performance aluminum ventilation membrane for ridges and hips. Measuring 5 m in length and 300 mm in width, it ensures watertight sealing and optimal airflow for flat and mixed roof tiles. Crafted by STIPL Roofz, it is secured with nails or staples to the batten, with adhesive strips for easy roof adhesion. Its lacquered aluminum and butyl glue construction ensures durability and weather resistance.

Dimensions: 5 m x 300 mm

Material: 0.14 mm lacquered aluminum with butyl glue

Pallet Quantity (approx): 800 m (40 packs)

Advanced Membrane

Alu-roll membrane enhances roof waterproofing.

Weather Resistant

Resists harsh weather for lasting durability.

Seamless Application

Designed for efficient roof sealing installation.
