Flat Red Roof Tile

Flat Red roof tile combines elegant design and large format for faster, cost-effective installation. Durable and versatile with straight or broken bond laying.

Flat Red Tile – Elegant, Efficient & Economical

The Flat Red roof tile offers refined elegance and faster installation. Its larger size reduces material and labor costs, making it an ideal choice for durable, budget-friendly, and stylish roofing.

The **Flat Red Roof Tile** is a modern, **versatile roofing solution** designed for quick installation, cost-effectiveness, and visual sophistication. With its **larger format** and easy-fit structure, this tile reduces the number of pieces per square meter—saving both **material and labor costs**.

Crafted from high-quality ceramic, the tile combines **elegant flatness** with excellent strength, low water absorption, and resistance to harsh weather conditions. It supports both **straight and broken bond laying**, offering flexibility to match your architectural vision.

Each tile weighs only **3.6 kg**, making it easy to handle and install without compromising durability. Its vibrant red tone adds character to residential, commercial, and institutional buildings.

Perfect for projects that demand both **economy and elegance**, the Flat Red tile is a smart, long-lasting solution backed by **La Escandella's ceramic innovation**.

Sleek Flat Design
Flat red tiles offer a modern, minimalist roof look.

High Strength
Engineered to resist wind and weather impacts.

Precision Fit
Ensures seamless installation with no gaps.
