

# H-Selection Innova Pepper

Innova Pepper tile delivers a bold, textured finish with strength and flexibility. Ideal for contemporary roofs needing durability and standout aesthetics. Made by La Escandella.

## Innova Pepper – Bold Texture, Lasting Impact

Innova Pepper brings bold expression and a textured finish to modern rooftops. Perfect for unique projects, it combines strength, elegance, and versatility with straight or broken bond laying.

The **H-Selection Innova Pepper Roof Tile** by La Escandella is designed to make a bold architectural statement. Featuring a distinctive, pepper-toned finish, this tile adds depth, contrast, and a contemporary edge to any structure—whether used individually or paired with Vienna tiles.

Manufactured with La Escandella's advanced **H-Selection technology**, Innova Pepper offers:

**Exceptional dimensional accuracy**

**Low water absorption** for high weather resistance

**Consistent, textured color tones** that resist fading

**Excellent mechanical strength**, despite being lightweight at 3.4 kg

The tile supports **both straight and broken bond laying**, allowing creative design flexibility for rooftops that reflect bold character and reliable performance.

Ideal for **urban homes, villas, commercial buildings**, and designer projects, Innova Pepper is the perfect blend of **texture, tone, and technology**, bringing elegance and durability to rooftops across all environments.
