

H-Selection Planum Brown

Planum Brown combines rustic charm with modern strength. Large format, UV-resistant finish, and broken bond laying make it perfect for premium rooftops.

Warm Earth Tones with Lasting Strength

H-Selection Planum Brown offers a rich, earthy tone that adds warmth and character to any structure. Designed for long-lasting performance, it blends tradition with cutting-edge technology.

The **H-Selection Planum Brown Roof Tile** by La Escandella blends **traditional aesthetics with cutting-edge performance**. Featuring a warm, earthy brown tone, this tile adds timeless character to homes, villas, and architectural spaces while offering the **efficiency of a large-format design**.

Manufactured using **H-Selection technology**, the tile ensures:

Perfect flatness and dimensional consistency

Low water absorption for excellent weather resistance

UV-resistant natural brown finish

Superior mechanical strength in a lightweight 3.5 kg form

The tile is installed using the **broken bond (cross bond)** pattern, improving water runoff and adding dynamic flow to the rooftop design. Its larger surface area reduces the number of tiles per square meter, speeding up installation and lowering labor costs.

Whether you're designing a rustic-themed villa, a countryside retreat, or a modern residential project, **Planum Brown** offers a **versatile, durable, and elegant roofing solution**.

Planum Roof tile
