

H-Selection Selectum Dark Blue

Selectum Dark Blue offers deep color, klinker strength, and FlexiLock ease. A bold, weather-resistant roofing solution built for elegant, long-term performance.

Selectum Dark Blue – Classic Craft Meets Deep Blue Style

Selectum Dark Blue fuses rich color depth with klinker ceramic quality. With FlexiLock installation, it offers timeless style, lasting durability, and exceptional weather resistance for premium rooftops.

The **H-Selection Selectum Dark Blue Roof Tile** brings architectural sophistication to rooftops with its bold, deep blue finish and traditional European profile. Designed by La Escandella and offered by **STIPL Roofz**, this tile is made with **klinker ceramic**, ensuring exceptional density, durability, and color longevity.

Its **FlexiLock system** makes installation seamless by locking tiles precisely in place, saving time and improving alignment. With a tile usage range of **11 to 14 pieces per square meter**, this versatile tile adapts to various designs, from villas to modern structures.

The deep blue glaze offers a **contemporary twist** on heritage roofing, delivering a striking contrast against natural stone, white exteriors, or green surroundings. It is also highly functional—resistant to extreme weather, low in porosity, and easy to maintain.

Ideal for architects and homeowners seeking a **bold yet timeless finish**, Selectum Dark Blue blends high performance with a standout aesthetic that leaves a lasting impression.
