

Hexagonal Head Drill Screws – CAM93

Discover CAM93 Hexagonal Head Drill Screws from STIPL Roofz—robust fastening for roof tiles and metal purlins.

Hex Head Self-Drilling Screws – CAM93

CAM93 hexagonal head drill screws offer robust fastening for roof tiles and metal purlins.

The **Hexagonal Head Drill Screws – CAM93** are engineered for fastening roof tiles to metal purlins or battens without pre-drilling. Crafted by STIPL Roofz, these galvanized steel screws feature a hexagonal head for enhanced torque and a metallic washer with EPDM rubber for watertight sealing. Measuring 60 mm in length and 6.1 mm in diameter, they are ideal for flat and mixed roof systems. [Ref: Self Drilling Tile Screw](#)

Dimensions: 60 mm x 6.1 mm

Material: Galvanized steel with EPDM washer

Pallet Quantity (approx): 10,000 units

Strong Fastening

Screw provides reliable metal batten attachment.

Durable Build

Resists corrosion for long-term performance.

Seamless Application

Designed for efficient screw installation.
