

Mixed Flamed Paja Tile

Elevate your project with Mixed Flamed Paja Roof Tile by STIPL Roofz – a premium Mediterranean S-curve clay tile with rustic flamed tones and easy installation.

Mixed Flamed Paja Tile – Mediterranean Warmth & Style

The Mixed Flamed Paja Roof Tile captures the rustic charm of Mediterranean roofs with warm, flamed tones and a classic S-curve for elegant, weather-resistant roofing that installs with ease.

The **Mixed Flamed Paja Roof Tile** is a celebration of Mediterranean elegance blended with modern engineering. Designed with a **double-curved S-profile**, this tile ensures excellent water drainage, enhanced ventilation, and a timeless aesthetic that elevates both traditional and contemporary architectural styles.

What sets the Flamed Paja variation apart is its **rich, warm gradient** – a fusion of earthy ochres and terracotta tones fired to perfection. This natural “flamed” effect gives each tile unique character, making every roof an original masterpiece.

Sourced from the renowned **La Escandella** in Spain and offered in India by **STIPL Roofz**, this tile is built to withstand harsh weather while retaining its vibrant appearance. Its interlocking design and compatibility with ridge, valley, and eave accessories make it ideal for **easy, efficient installation** with minimal wastage.
