

Ridge 45° – Q145*K

Explore Q145*K Klinker 45° Ridge from STIPL Roofz—angular ventilation for roof ridges with durable klinker design.

Q145*K Klinker 45° Ridge – Angular Ventilation

Q145*K klinker ridge tile provides 45° angular ventilation for roof ridge designs.

The **Ridge 45° – Q145*K** is a klinker ridge tile by STIPL Roofz for 45° ridge applications. Measuring 45×20×7 cm and weighing 3.5 kg, it ensures ventilation and a precise aesthetic fit. Its durable klinker finish resists UV, frost, and weathering, ideal for modern and traditional Mediterranean-style roofs.

Dimensions: 45×20×7 cm

Weight: 3.5 kg per piece

Pallet Quantity (approx): 200 units

45° Ridge Design

45° ridge ensures secure roof alignment.

Durable Build

Resists weathering for long-term performance.

Seamless Fit

Designed for stable ridge installation.
