

Square Red Ceramic Window Lattice – CACE10

Shop CACE10 Square Red Ceramic Lattice from STIPL Roofz—timeless ventilation tile for facades, walls, and Mediterranean-style privacy screens.

Square Red Ceramic Lattice – Timeless Ventilation Design

CACE10 ceramic lattice provides a bold square pattern with excellent ventilation, perfect for facades and decorative walls.

The **Square Red Ceramic Window Lattice – CACE10** is a robust terracotta screen with a bold square pattern. Measuring 20×20 cm with a 7 cm thickness and weighing 2.5 kg per piece, it promotes natural ventilation and privacy for facades, pergolas, or garden walls. Crafted by STIPL Roofz, its red ceramic finish adds timeless Mediterranean appeal while ensuring durability. CACE10 is ideal for creating ventilated, aesthetic spaces in modern or traditional architecture.
