

TNPK Slate

TNPK Slate by STIPL Roofz offers ventilated facade performance with bold slate aesthetics. Boost building efficiency and curb appeal.

TNPK Slate: Thermal Performance Meets Timeless Design

The TNPK Slate tile combines modern thermal insulation with a classic slate finish for vertical facade systems.

TNPK Slate is a part of the VerticalRoof range by La Escandella, designed to deliver high energy efficiency and architectural value. It integrates into ventilated facade systems, forming a natural airflow buffer that stabilizes internal building temperatures. The slate-colored ceramic finish provides visual depth and sophistication, making it ideal for homes, offices, and ecoretrofit projects. With TNPK, buildings enjoy year-round thermal comfort, reduced energy expenses, and enhanced facade integrity.

Verticalroof system

Wind resistance

Q ? 4,000 Pa

Load resistance of battens

Conforms

Impact resistance

Category IV

Verticalroof system with Visum3 klinker H-Selection tile, tested by the laboratories of Tecnalia.

Slate Strength

TNPK slate offers a robust, natural roof aesthetic.

Weatherproof

Resists rain and UV for long-lasting performance.

Easy Installation

Ensures quick, secure fitting for various roofs.
