

TWPK Slate

Upgrade to TWPK Slate from La Escandella's VerticalRoof for an energy-efficient, ventilated facade with modern slate elegance.

Eco-Efficient Ventilated Facade

Experience sustainable design with TWPK Slate, offering thermal insulation and timeless elegance for energy-efficient building facades.

TWPK Slate from La Escandella's VerticalRoof series is the perfect blend of functionality and elegance. Designed for ventilated facades, this tile improves energy efficiency by creating a breathable air chamber between the insulation and the exterior. Its rich slate tone offers a contemporary yet natural look, making it ideal for modern eco-conscious constructions. Suitable for both residential and commercial projects, TWPK Slate contributes to thermal stability and reduced energy bills, while enhancing building aesthetics with bold sophistication.

Verticalroof system

Wind resistance

Load resistance of battens

Impact resistance

Q ? 4,000 Pa

Conforms

Category IV

Verticalroof system with Visum3 klinker H-Selection tile, tested by the laboratories of Tecnalia.

Slate Durability

TWPK slate offers a robust, natural roof look.

Weather Resistant

Resists rain and UV for lasting performance.

Secure Fit

Designed for stable, wind-resistant installation.
