

Waterproof Membrane – CAM52

Discover CAM52 Waterproof Membrane from STIPL Roofz—robust watertight protection for flat and mixed roof tiles.

Waterproof Roofing Membrane – CAM52

CAM52 waterproof membrane offers robust watertight protection for roof systems.

The **Waterproof Membrane – CAM52** is a high-quality roofing membrane for preventing water infiltration. Crafted by STIPL Roofz, its 10 m roll length and polymer construction ensure watertight sealing for flat and mixed roof tiles. With adhesive backing, it offers easy installation and durability for modern and traditional roofing systems.

Dimensions: 10 m x 1 m

Material: Polymer

Pallet Quantity (approx): 400 m (40 rolls)

Robust Membrane

Waterproof membrane ensures reliable roof sealing.

Durable Build

Resists weathering for long-term performance.

Easy Installation

Designed for secure roof sealing application.
