

Waterproof Membrane – CAM65

Discover CAM65 Waterproof Membrane from STIPL Roofz—robust protection against water infiltration for flat and mixed roof tiles.

Waterproof Roofing Membrane – CAM65

CAM65 waterproof membrane provides robust protection against water infiltration for roofs.

The **Waterproof Membrane – CAM65** is a high-performance roofing membrane designed to prevent water infiltration. Crafted by STIPL Roofz, its 10 m roll length and polymer construction ensure watertight protection for flat and mixed roof tiles. Easy to install with adhesive backing, it offers durability and weather resistance for modern and traditional roofing systems.

Dimensions: 10 m x 1 m

Material: Polymer

Pallet Quantity (approx): 400 m (40 rolls)

Waterproof Protection

Waterproof membrane ensures robust roof sealing.

Durable Build

Resists weathering for long-term performance.

Easy Application

Designed for secure roof sealing installation.
